

***Healthy Homemade Treats:***

**Using canned pet food in the microwave** - Cut into bite-size pieces and bake in the microwave for 2 ½ to 3 minutes **OR** slice into ¼ to ½” thick pieces, place “cookies” on a plate and cook on high for 3 minutes. Flip and cook for 1 more minute on the other side. (This will change the texture but will not diminish the nutritional content of the food.)

**Using canned pet food in a conventional oven** - Slice into ¼ to ½” thick pieces, place on a cookie sheet and bake at 350 degrees for about 30 minutes.

**Using dry kibble** - Grind the kibble into “flour” using a blender and then mix with enough water to form dough. Shape into “cookies” and bake on a cookie sheet in the oven for about ½ hour at 350 degrees, until crispy.

***Treats should not exceed 5% of your pet’s total daily caloric intake.***
